

FLOAT MXR SHOCK SETUP SUPPLEMENT

YAMAHA® TT-R50 APPLICATIONS

The items noted in this supplement are exceptions to the included **FOX® FLOAT MXR** owner's manual when utilizing the MXR on a Yamaha TT-R50 motorcycle.

The basic setup, maintenance, and adjustment for the **FLOAT MXR** is as noted in the included owner's manual.

- 1** **2** Basic shock orientation on the bike.
- 3** The **FLOAT MXR** is mounted with the rebound knob pointed up and mounted at the swingarm end of the bike.
- 4** The upper and lower reducers are the same dimensions (upper and lower mount) for the TT-R50 application.
No washers are needed and are not included in the mounting kit.
O-rings and mount orientation remain the same (as shown in figure 4).
