

PODIUM X SHOCK SETUP SHEET

KTM SX 50 APPLICATIONS

- 1 When installing your **Podium X** shock, the upper eyelet can only be mounted in the upper/rearward (**1A**) most shock mount of the frame.
- 2 The lower shock eyelet should be oriented with the red rebound adjuster facing towards the back of the bike.
- 3 Basic shock orientation on the bike.

The basic setup, maintenance and adjustment for the **Podium X** shock is as noted in the included owner's manual.

1A Rearward upper most mount location

NOTE: Piggyback & Reservoir location.
(Facing Forward)
